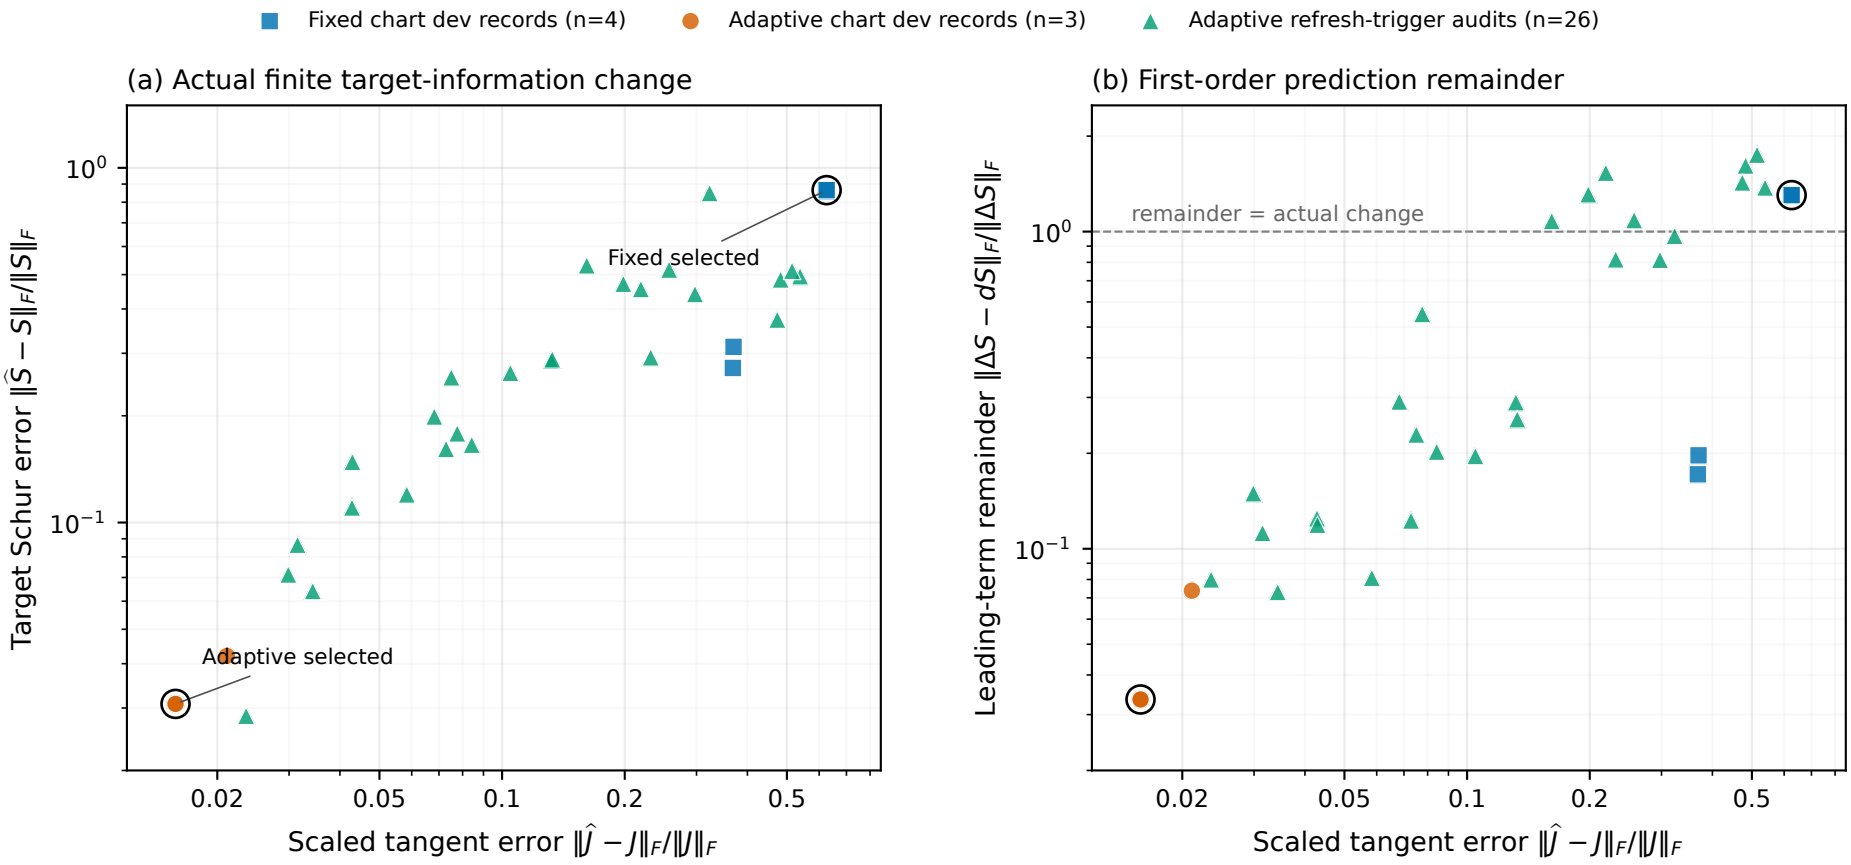
A local chart check is not a stationarity or target-accuracy certificate



Selected dev endpoint	Exact projected stationarity	Chart value, same normalization	Exact < 0.005
Fixed	0.688186	0.024911	FAIL
Adaptive	0.009787	0.017335	FAIL

33 saved same-state pairs from one development case; endpoint/final records may overlap.
Real–imag stacked J, noise scale 0.01 and public parameter scales; no new PDE or truth reads.
