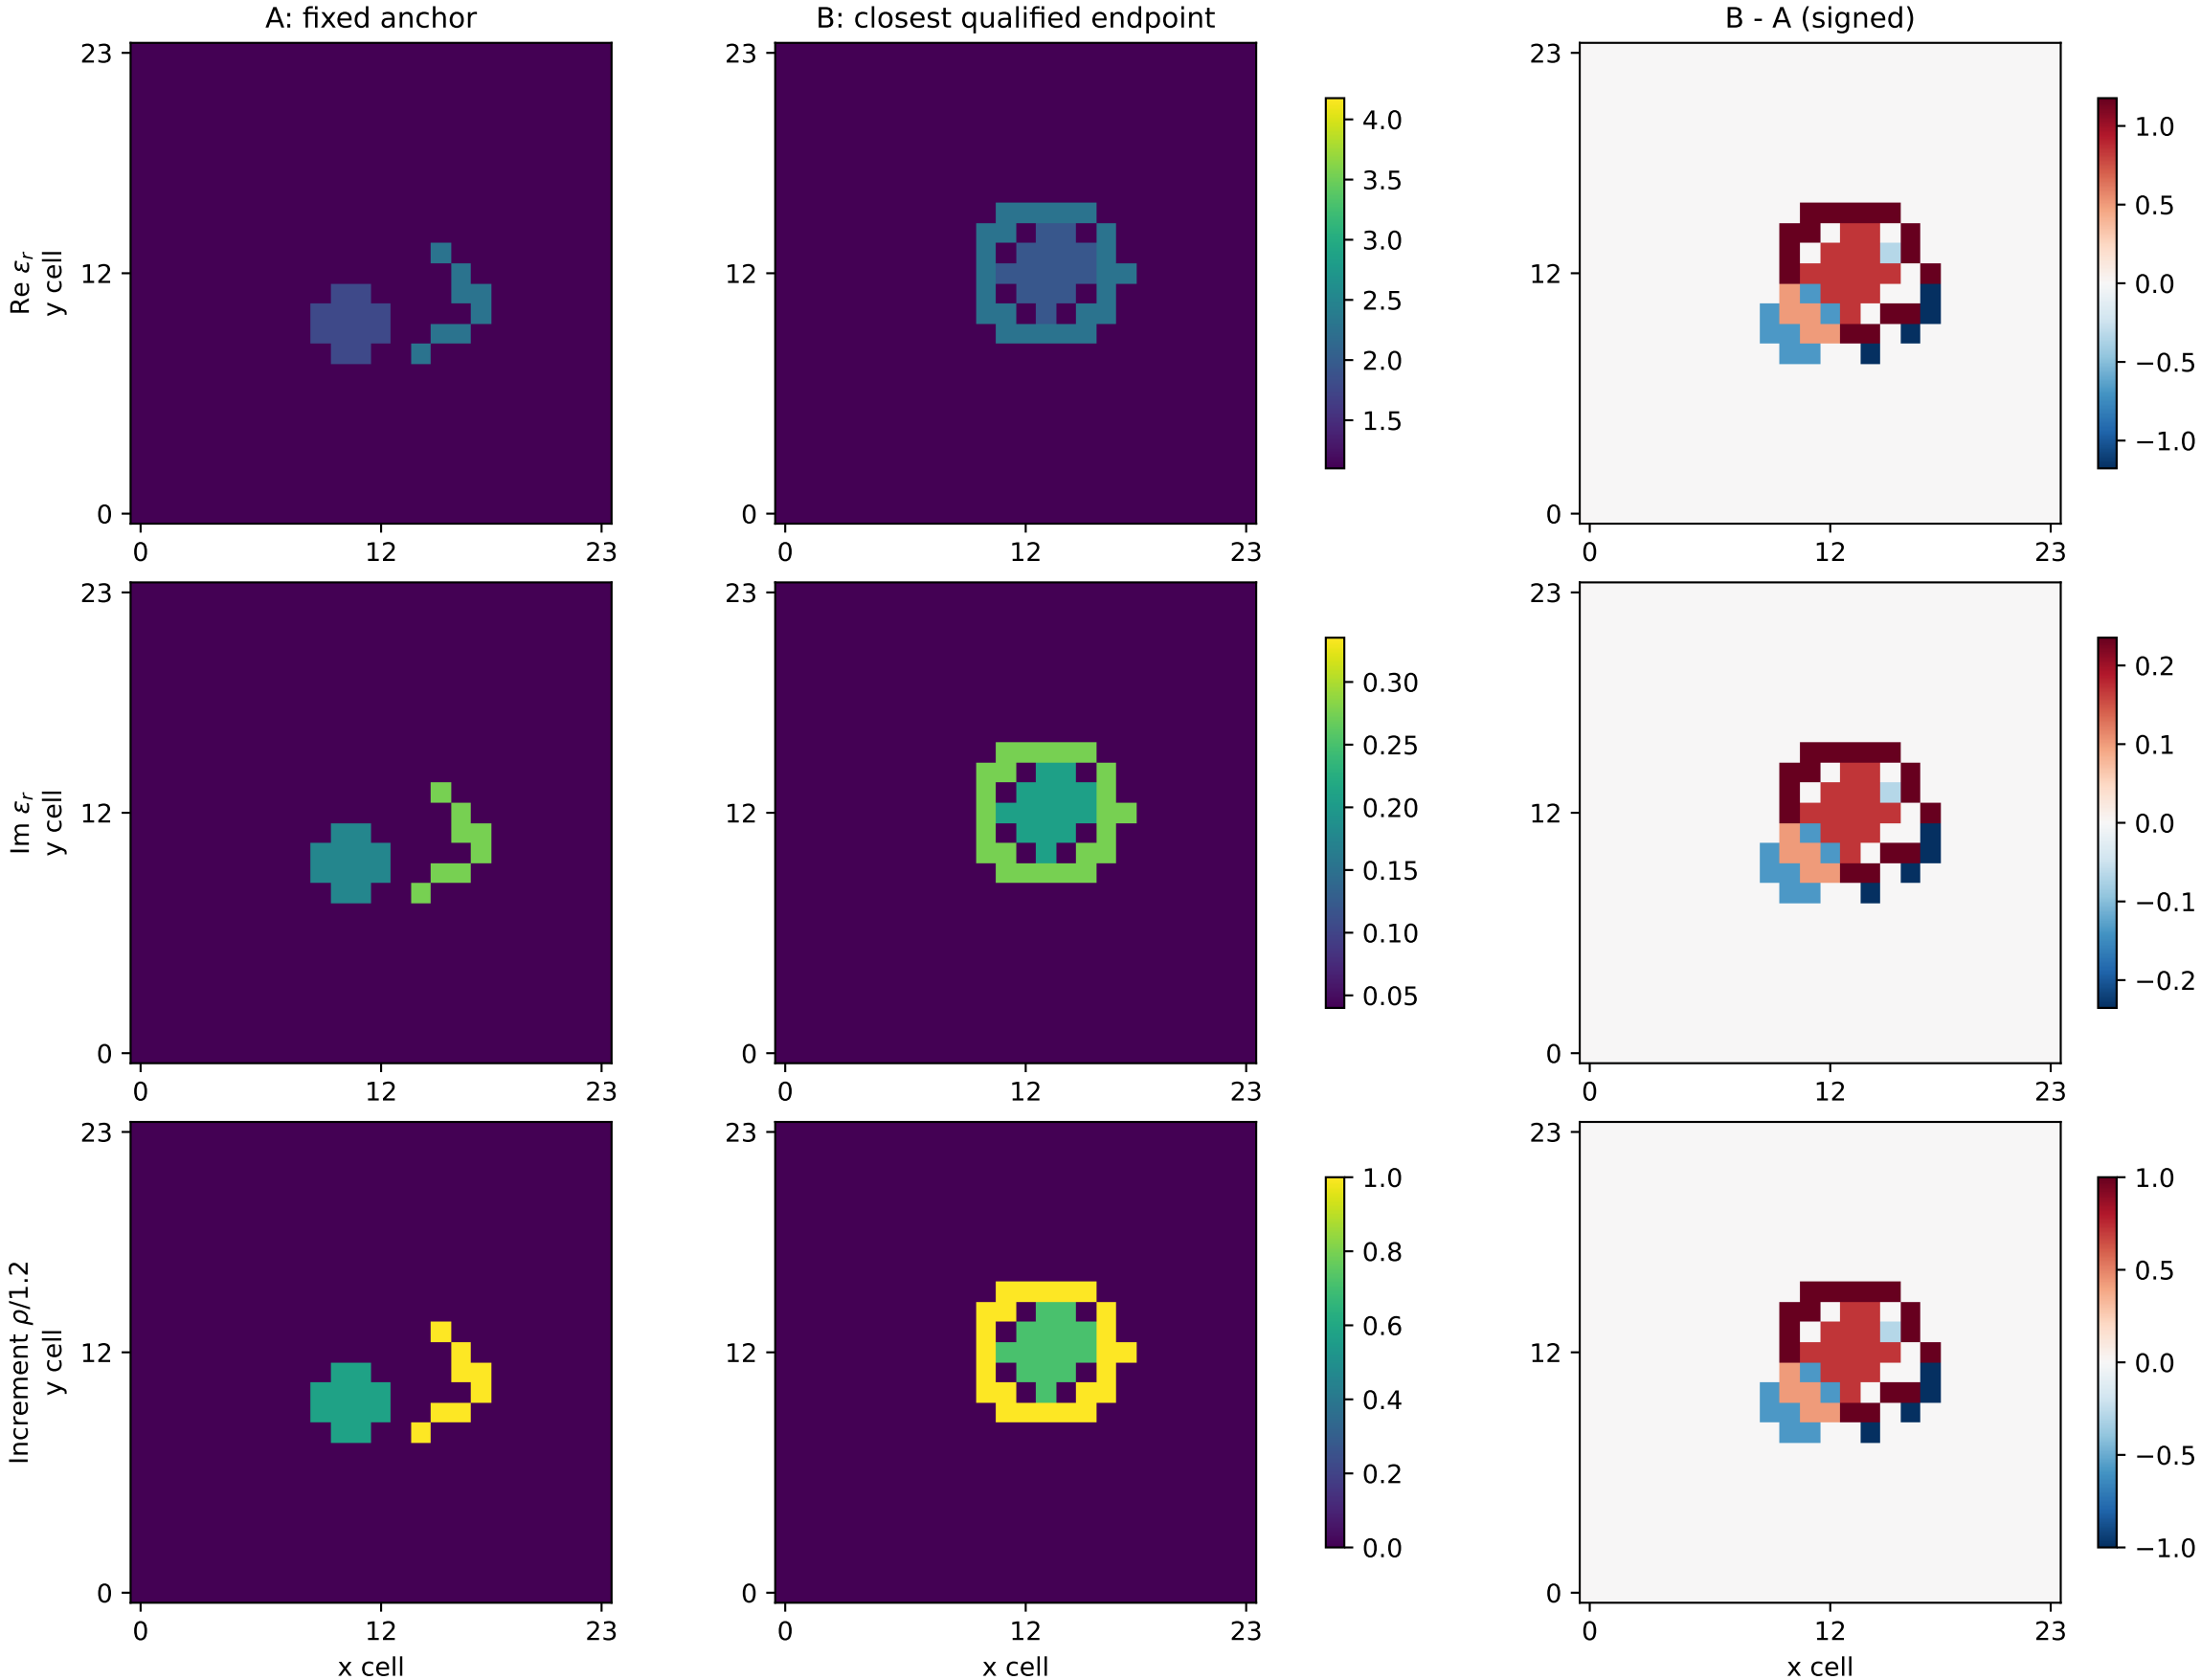
asymmetric_piecewise / weak — nearest structurally qualified P0_EXACT pair
d_pred=310.368 (required <=2); same fixed sigma=0.0006470196
32-noise competition: A truth 0/32, B truth 0/32 — NO COMPETING WITNESS



Shape RMS=0.159; occupancy=0.048; boundary=0.036; persistent levels=3/5
Finite bounded search: no global uniqueness claim; no posterior-mass estimate. Shared A/B scales across families.
