250033_weak: full-forward verified local calibration candidates
Known original-P0 TRAIN material; eight-coordinate conditional chart, not general 2D material support
Known TRAIN anchor
rW=22.313
local
rW=22.448; material RMS=0.00147
geometry
rW=22.340; material RMS=0.006129
continuation
rW=22.236; material RMS=0.001116
prior
No compatible candidate
No compatible candidate
Re epsilon
y cell
Im epsilon
y cell
x cell
relative permittivity
relative permittivity
Shared Re/Im scales across both anchors and all methods. Images selected by residual feasibility and material distance.
Compatibility is not posterior mass; continuation is candidate-only; visible contrast is not a separated-topology certificate.
