250034_ring: full-forward verified local calibration candidates
Known original-P0 TRAIN material; eight-coordinate conditional chart, not general 2D material support
Known TRAIN anchor
rW=22.970
local
rW=23.012; material RMS=0.001952
geometry
rW=22.944; material RMS=0.004523
continuation
rW=23.274; material RMS=0.008385
prior
No compatible candidate
No compatible candidate
Re epsilon
y cell
Im epsilon
y cell
x cell
relative permittivity
Shared Re/Im scales across both anchors and all methods. Images selected by residual feasibility and material distance.
Compatibility is not posterior mass; continuation is candidate-only; visible contrast is not a separated-topology certificate.
