Chart curvature versus Maxwell feedback | posthoc decomposition of paid arrays
250033_weak | known TRAIN
250034_ring | known TRAIN
Local curvature components
Frozen chart: ‖tJDg v‖
Material secant: ‖J [g(u + tv) − g(u)]‖
Full response: ‖F(g(u + tv)) − F(g(u))‖
Whitened response norm
Prior-coordinate step t
t=1: frozen chart 0.006429
material secant 3.7366; full 3.7337
Maxwell-only relative linearization error: 0.0044585
t=1: frozen chart 4.5343
material secant 5.4314; full 5.3759
Maxwell-only relative linearization error: 0.017158

250034_ring
Response norms do not establish vector agreement; the reported Maxwell-only error compares vectors.
Known TRAIN calibration only; these curves do not demonstrate Maxwell divergence or inverse discoveries.
